AutoCAD Crack + X64

Q: SharedPreferences.getStringWith() returns null I am trying to get the value of a key (String) in SharedPreferences. On my MainActivity, I do this: SharedPreferences pref = this.getSharedPreferences("pref", MODE_PRIVATE); String prefix = pref.getString("pref_prefix", "").toString(); String name = pref.getString("pref_name", "").toString(); String time = pref.getString("pref_time", "").toString(); String type = pref.getString("pref_type", "").toString(); String rank = pref.getString("pref_rank", "").toString(); I have tried to put those variables in the class, and accessed them like this: SharedPreferences pref = getSharedPreferences("pref", MODE_PRIVATE); String prefix = pref.getString(...); But I get this error: FATAL EXCEPTION: main java.lang.RuntimeException: Unable to start activity ComponentInfo{com.example.client.myapplication/com.example.client.myapplication.MainActivity}: java.lang.NullPointerException: Attempt to invoke virtual method 'java.lang.String android.content.Context.getSharedPreferences(java.lang.String, int)' on a null object reference I'm working on this for hours and can't get it to work. Please help me. Thanks. A: Try these: SharedPreferences pref = this.getSharedPreferences("pref", MODE_PRIVATE); String prefix = pref.getString("pref_prefix", "").toString(); String name = pref.getString("pref_name", "").toString(); String time = pref.getString("pref_time", "").toString(); String type = pref.getString

What's New in the AutoCAD?

Enhanced 4D and Watermarking: Add 4D content and make it consistent across AutoCAD versions for more flexible production. Watermark existing drawings with a one-click option and discover watermarking tips to get the most out of AutoCAD. Simplify the integration of PDF and DWF: Create flexible DWF output with PDF embedding and DWF preview. With PDF embedding, you can easily convert DWF into other popular file formats and show an embedded PDF while maintaining editability and quality of the DWF. (video: 1:15 min.) Enhanced Performance: Get the most out of the newest hardware and software available. With improvements to AutoCAD and Sharepoint, plus new devices to streamline your workflows, you can design more efficiently and share with precision. Improved Stylebook: Let you define or share style definitions in style book, and keep styles consistent between drawings and between users. Style book updates with XPS documents and source documents. Enhanced All-in-One experience: Get the features you want in a professional design experience. The new All-in-One experience simplifies and streamlines key tasks, while enhancing the productivity you need on the go. Automatic Export to DWF for Remote Access: Automatically export DWF drawings to DWF files or web services, enabling your teams to send and view AutoCAD drawings anywhere and anytime. Microsoft Edge and Windows 10 enhancements: Experience a smoother, faster, more reliable AutoCAD experience on Windows. Microsoft Edge is the default browser for AutoCAD, enabling you to explore AutoCAD online, open DWF files, preview drawings, and share files. Windows 10 provides a more polished experience and provides additional productivity tools like Cortana, search, and the Microsoft Store.
