Download: Download: Download: Import customizr pro theme. This theme is great solution if you want to style your website from. Forgot Password? This WordPress theme is for the premium version of the Customizr Pro WordPress theme..Q: Correct syntax for boxplots with y-axis labels in R This question has been asked so many times in the past, but I am still not able to understand the correct syntax to display boxplots with their y-axis labels as characters in R. The given syntax seems to always produce not displayed error messages. I suppose there is something wrong with my syntax, but I'm not sure how to fix it. Below is my attempt, some observations and the error message I get: > library(ggplot2) > d
